

Sales Report	
Date(s):	Monday July 14th - Friday July 18th
Locations Visited:	
Sales Manager:	Stephane Husser

Air France

Airline	Air France		Aircraft	B777	24
Surface(s)	Vertical		Seat OEM	Safran	
Design Stage	Certification	Commercial	Designer	Multiple	
Completed	Completed	Completed	Sub Contactors	MGR	

Airline	Air France		Aircraft	A350	38
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Multiple	
Completed	Completed	Completed	Sub Contactors	ACH	

- Stelia has now been quoted for the current needs, and we have also received requests for quotations from some of Stelia's subcontractors for limited quantities. Most likely, we will need to enter into an agreement with Stelia, similar to what we have with Lufthansa, to ensure we are covered for the MOQ, allowing Stelia and their partners to draw from a shared pool.
- I would also like to start the recertification process, this time with the standard treatment instead of BC3, to make things easier and show our commitment to improvement to both Air France and Stelia.
- **No update for Air France this week. It is the start of the summer holidays and most people at Air France are already away. Let's take this opportunity internally to review and prepare what we would need if we were to use the same system as with Lufthansa, since this will most likely be one of the topics during my meeting on September 9th.**

KLM

Airline	KLM		Aircraft	TBC A350	11
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Airbus	
Completed	Completed	Completed	Sub Contactors	TBC	

- The upcoming meeting on September 9th at 10 a.m. in Paris will be a AFR-KLM group level and will include both Isabel and Alexis.
 - The purpose is to discuss whether we can have a contract covering the entire group. While the agenda is broad and the time frame is short—since Isabel will only be in Paris for three or four hours.
 - I am confident that topics such as the current stock in our hands and the panels will also be addressed during this meeting.
- For this meeting, I clearly want to be in a position to propose replacing MGR for the panels.
- **The email for produced material has been sent to KLM, but so far there has been no response, and as far as I can tell, it has not even been opened yet by anyone at KLM. I will continue to monitor the situation, and if the email remains unopened by the end of today, I will send a reminder.**
- **After discussing with Kevin, I now have a better understanding of why we lost the last bid with KLM (MGR for KLM). I am still unsure if the same type of manufacturing will be used for KLM this time on Stelia, but I want to play that card and see if we can at least open the door for some panels, so that we are on the map for those projects.**

Lufthansa group

Airline	Lufthansa (Voyager)		Aircraft	A350 /B748	37
Surface(s)	Vertical (BC+FC)		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	Completed	Completed	Sub Contactors	Multiple	

Airline	Lufthansa (Voyager)		Aircraft	B777X	20
Surface(s)	Vertical (BC+FC)		Seat OEM	Collins USA	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	In Progress	Completed	Sub Contactors		

- No significant news for Lufthansa this week. We are still expecting the new orders in the timeframe around October. Once again, there is no change on this program until Stelia initiates the 747 retrofit program.
- **No update**

Swiss (completed)

Airline	Swiss		Aircraft	5	A350
Surface(s)	Vertical		Seat OEM	Collins - Stelia	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	Completed	Completed	Sub Contactors	TBC	

- The Stelia side of the program is completed and running smoothly. The only concern at the moment is on the Collins' side, and I will need to discuss with Kevin after his holiday to determine whether there are still any outstanding issues.
- **No update.**

Austrian Airlines

Airline	Austrian		Aircraft	7	B777
Surface(s)	Vertical		Seat OEM	ZIM (PE) - + TBC 4 BC	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Not started	Completed	Sub Contactors	TBC	

- **No update**

Edelweiss

Airline	Edelweiss		Aircraft	A350	4
Surface(s)	Vertical		Seat OEM	ZIM (PE)	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Not started	Completed	Sub Contactors	TBC	

- **No update.**

Discover Airlines

Airline	Discover		Aircraft	8	A330
Surface(s)	Vertical		Seat OEM	ZIM (PE) - Stelia BC	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Pending	Not started	Completed	Sub Contactors	TBC	

- **A new part number has been assigned for Discover Airlines, and the quote has been sent to ZIM.**

Brussels

Airline	Brussels		Aircraft	10	A330
Surface(s)	Vertical		Seat OEM	ZIM (PE) - Stelia BC	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Not started	Completed	Sub Contactors	TBC	

- **LAB dip in the making for Brussels**

Qatar

Airline	Qatar		Aircraft	777 + 787	178
Surface(s)	Vertical + Seating		Seat OEM	Adient	
Design Stage	Certification	Commercial	Designer	Acumen	
In Progress	In Progress	In Progress	Sub Contactors	TBC	

Airline	Qatar		Aircraft	321	20+30+25
Surface(s)	Vertical + Seating		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	In Progress	Completed	Sub Contactors	TBC	

- **Our STP renderings have been reviewed. The front row is approved, but the front row monument needed to be revised. We have made the necessary changes, and those are currently under review by Stelia.**
- **Once approved, we will have the go-ahead to produce it. There are still ongoing discussions about the back panel, as Qatar wants the panel as close as possible to certain exposed pieces, while Stelia is recommending a five millimeter gap between two supports for installation purposes. We will need to review this further.**
- **We still owe them one TDS, which I will address with quality today. We should also soon receive the free-of-charge PO for the material with AFR treatment.**
- **Finally, we are producing new 3D masters this week, and again in about two weeks, using the material from the latest lab dip and remaining samples for the BlackBerry.**

Riyadh Air

Airline	Riyadh Air		Aircraft	B787	39
Surface(s)	Vertical		Seat OEM	SSGB	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Completed	Completed	Sub Contactors		

- **No update visit confirmed for September**

Saudi

Airline	Saudi		Aircraft	A321 XLR	8 (15 total)
Surface(s)	Vertical + Seat covers.		Seat OEM	TAS (Vantage Solo)	
Design Stage	Certification	Commercial	Designer	Design investment.	
Completed	Completed	Completed	Sub Contactors		

Airline	Saudi		Aircraft	B787	39+ 10
Surface(s)	Seat Covers		Seat OEM	Safran PEY+ Collins BC	
Design Stage	Certification	Commercial	Designer	PG	
Completed	In process	Completed	Sub Contactors	Safran / Collins	

Airline	Saudi (retrofit)		Aircraft	A330	35
Surface(s)	Seat Covers		Seat OEM	Safran PEY+ Collins BC	
Design Stage	Certification	Commercial	Designer	PG	
Completed	In process	Completed	Sub Contactors	Safran / Collins	

- **I had an excellent visit with Aamir, and we agreed that I would provide him with samples to work with and help move the project forward.**
- **We have scheduled a new meeting for September, this time with the whole team, and hopefully by then Aamir will be leading the team, which would give us an incredible edge.**
- **This would not only benefit us for vertical surfaces, but also for retrofit programs and seat covers, where Aamir is pushing hard for a synthetic version. He is determined to show Saudi's top management that synthetic materials are the way forward and that genuine leather is no longer the best choice for aircraft interiors.**

Etihad

Airline	Etihad		Aircraft	A321	40
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	JPA	
Not started	Completed	In Progress	Sub Contactors		

- **I have been working closely with Giacomo, answering his questions and acting as an intermediary with Catherine Barber to make sure we understand and can deliver exactly what she's requesting. As far as I can tell, everything is now clear on Giacomo's side and he has all the information he needs to produce the samples as soon as possible. I'm not certain of his exact timeline, since they are typically closed during August, and Catherine has already been told to expect samples only at the beginning of September. There's a possibility the samples could be ready before the end of this week, which would be fantastic, but I do not want to commit to that timeline. In any case, Giacomo will provide part numbers, and we will be able to supply all PNs to Catherine on time.**

Emirates

Airline	Emirates – 2S02 Linefit		Aircraft	B777X	40
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	TBC	
Completed	Completed	Completed	Sub Contactors	Multiple	

Airline	Emirates – 2S08 retrofit		Aircraft	B777	46
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	TBC	
Completed	Completed	Completed	Sub Contactors	Multiple	

- **There is one very urgent action for Emirates. Edwina has been following up with us every day since Wednesday regarding material needed for the A319 executive jet. They need USLEB FRC 5654 and have already placed an order. We've informed them it will be available by the end of September, but the material is already late. Any improvement we can make on that delivery timeline would be appreciated, even if it's just a few days earlier. This is an urgent and highly visible order, as it is for the CEO's executive jet (Tim Clark's aircraft). I will follow up again with customer service and Jason to see if there's anything we can do to expedite this, as Emirates will value any effort we make to help them with this delivery.**

Fly Dubai

Airline	FlyDubai		Aircraft	B737	Around 80
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	JPA	
Completed	Completed	Completed	Sub Contactors		

- Adam and Jason to confirm if they can secure an old headrest cover in Promessa to present to FlyDubai.
- **We have received a new order from FlyDubai. There is still an opportunity regarding the headrest cover, but we need to act quickly. We should retrieve some old material used by one of our historical customers to demonstrate its long-term performance in service. This could be useful not only for FlyDubai, but also for FlyNAS, Saudi, and Etihad.**

FlyNas

Airline	FlyNas		Aircraft	A330	15+15
Surface(s)	Vertical		Seat OEM	Optimares	
Design Stage	Certification	Commercial	Designer	Acumen	
Completed	Completed	Completed	Sub Contactors		

- I had a very good and productive meeting with Zain and Nour from FlyNAS. We first reviewed the business class seat and clarified that, due to timing and constraints from Optimares, the area behind the monitors will be painted rather than covered with ultra-leather as originally intended. However, our Ultra-leather 900 will be used in several other areas, and Nomex will be used on the back shell, giving us a strong footprint on that seat. Nour and Azrin, both originally from Malaysia, are very well-regarded and proactive about cabin development in Saudi Arabia.
- They emphasized that price is a key factor for them, noting they are not Emirates, Saudi, or Qatar and must make rational financial choices for every material selected.
- They recently dropped the Geven seat for the economy cabin due to discomfort on longer flights, and they are switching to the Z200 from Safran for improved comfort on the A321s. FlyNAS is open to considering us for the whole seatcover, but they need written acknowledgement from Safran that our ultra-leather is approved for use on the Z200 seat. My question to Jason is whether we can obtain this letter from Yareli, as I suspect going through Donatienne would be a lengthy process.

Turkish Airlines

Airline	Turkish Airlines		Aircraft	TBC	Up to 600
Surface(s)	Seat Cover		Seat OEM	TCI	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Completed	Completed	Sub Contactors	TBC	

- Last week involved a lot of exchanges with Batuhan, who was clearly frustrated by the lack of clarity among his colleagues, they didn't even know what to order, and the project definition hasn't even begun. It became obvious that they need not only the vertical burn requirement, but also smoke and heat release testing. That realization seemed to hit home for Yaren, who internally acknowledged that they would not have the material on time, and the project will be postponed by weeks, if not months.
- To make matters worse, they cannot piggyback on Batuhan's results, since the Royalux project is completely different: they are using Kydex instead of Boltaron, and another foam, the details of which Batuhan is still unsure. Apparently, no testing or even indicative development work has been done on any of these materials. I suspect that's why we haven't heard anything from them since Batuhan spoke with the team. I expect we'll be contacted again, most likely urgently, to help and support them in developing a solution.

Kuwait Airways

Airline	Kuwait Airways		Aircraft	A330	7
Surface(s)	Vertical		Seat OEM	TAS	
Design Stage	Certification	Commercial	Designer	Factory	
Completed	Issues	Completed	Sub Contactors	TBC	

- We have had several back and forth discussions internally and with Airbus and Stelia. One of the main issues identified is the type of foam being used. We are now considering changing the type of foam, and Stelia is aligned with this idea, so we are ready to initiate testing.
- **No update last week**

Air Calin

Airline	Air Calin		Aircraft	A350-900	2
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Internal	
Completed	In Process	Completed	Sub Contactors	TBC	

- **Air Calin reached out this morning as they want to know when the tests will take place.**

Air Mauritius

Airline	Air Mauritius		Aircraft	A350-900	3
Surface(s)	Vertical		Seat OEM	Stelia + Recaro	
Design Stage	Certification	Commercial	Designer	Airbus	
Completed	Completed	Completed	Sub Contactors	TBC	

- **Mauritius reached out last week to also inquire about test results dates.**
