- The main update is that the joint procurement meeting with Air France and KLM has now been officially scheduled for September 9th. In July or August, most likely August, I will check with Jason to assess how aligning the pricing for everyone, as we did with Lufthansa, might impact our sales and revenue numbers for KLM.
- Additionally, we received a request for quotation from Stelia for the first section of the A350 program. This covers 21 A350s, with their initial forecast for a total purchase of \$800,000. I believe this could end up being over \$1,000,000, which is very good news. It could be even higher if Stelia does not switch from BC3 to the standard treatment, due to the issues and high scrap rate experienced with BC3 on this program.

- The main issue for KLM remains the double order originally placed by MGR, which we are still trying to resolve. One complication may be that the material was treated with BC3 before testing was completed. If that is the case, we will need to address this directly with MGR, since it is unclear whether we were informed that this was for a new program that still required certification, and it was most likely ordered together with the BC3 treatment. Once the situation is clearer, this will need to be tackled directly.
- On the other hand, if none of the material has yet been treated, the increase in aircraft to be delivered from 3 to 11 will fully justify the need for all the 1,000 yards of material that have already been produced.

Lufthansa group

Airline	Lufthansa (Voyager)		Aircraft	A350 /B748	37

Surface(s)	Vertical (BC+FC)		Seat OEM	Collins USA	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	In Progress	Completed	Sub Contactors		

- **No significant news for Lufthansa this week. We are still expecting the new orders in the timeframe around October. Once again, there is no change on this program until Stelia initiates the 747 retrofit program.**

Swiss (completed)

Airline	Swiss		Aircraft	5	A350
Surface(s)	Vertical		Seat OEM	Collins - Stelia	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	Completed	Completed	Sub Contactors	TBC	

- **The Stelia side of the program is completed and running smoothly. The only concern at the moment is on the Collins' side, and I will need to discuss with Kevin after his holiday to determine whether there are still any outstanding issues.**

Austrian Airlines

Airline	Austrian		Aircraft	7	B777
Surface(s)	Vertical		Seat OEM	ZIM (PE) - + TBC 4 BC	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Not started	Completed	Sub Contactors	TBC	

- **No news from Austrian Airlines this week. Sarah has not replied to my recent email, which in any case was mainly intended to show our proactiveness. Discussions with them are ongoing, and we expect to receive the purchase orders fairly soon, probably within the course of this week.**

Edelweiss

Airline	Edelweiss		Aircraft	A350	4

- **That was quite a DDR review. As most of you know, everything has been changed yet once again, it really is a moving target for us right now. The color for the back shell panel has been selected, but for the front, I haven't had any color confirmation yet.**
- **We are still based on 2 panels per seat, but the panels are getting larger. I've just reviewed the price impact with Kevin.**
- **I will have a meeting next Sunday when I am in Qatar, and I will take all the samples with me. I already have some samples of the different textures depths to show for the front panel.**
- **Also, and this is absolutely brilliant, we now have an aluminum-reinforced product that can be shaped for the front row panel. It's fantastic and I am sure everyone will love it, and it completely secures the bottom part which is currently exposed.**

Qatar (Continued)

- It is clear that Qatar is trying to finalize everything at the last minute to minimize the impact on their delivery schedule.
- In fact, while writing this, I just received a call from Hashim, who said he will put in a further budget to secure an order for the panels.
- I will have confirm the numbers with Kevin before Wednesday, but it looks like we are in a good position.
- The main purpose of this exercise isn't about the immediate revenue, which isn't huge compared to the potential, but about the excellent reputation we are building on the panel side. I want everyone to stay focused on this because it could really open doors for us, especially with Collins, where there are many more panels to be manufactured.

- **I have seen a couple of emails going between Bowes and Tyler, but I am not up to date on the current status. I will call Tyler to clarify exactly where things stand and find out if anything is still needed to keep the project moving.**

Etihad

Airline	Etihad		Aircraft	A321	40
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	JPA	
Not started	Completed	In Progress	Sub Contactors		

- **I am getting more and more frustrated by the Collins position, where they just bluntly accuse us of being out of spec without providing any further evidence. From what I have seen, they have not given us any real proof or even confirmed if they are looking at the right material. I will check with Kevin once he is back to see if the situation has moved forward.**

Emirates

Airline	Emirates – 2S02 Linefit		Aircraft	B777X	40
Surface(s)	Vertical		Seat OEM	SSFR

Design Stage	Certification	Commercial	Designer	TBC	
Completed	Completed	Completed	Sub Contactors	Multiple	

- **The current drop in orders from Emirates is mainly because the A380s being retrofitted right now do not have first class, and we had very little material on the business class seats of these early aircraft. This situation does not reflect a long-term trend, as the new aircraft coming into service have much more of our material in business class. We can expect a steady and organic increase in orders as the fleet renewal continues.**
- **Finally, to follow up, I have responded to Bindaya and will try to arrange a meeting during my next visit to Dubai. I am still not sure where this particular issue originated, but I definitely want to make sure that EK does not have incorrect records or an inaccurate view of our performance.**

Fly Dubai

Airline	FlyDubai		Aircraft	B737	Around 80

Airline	Turkish Airlines		Aircraft	TBC	Up to 600
Surface(s)	Seat Cover		Seat OEM	TCI	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Completed	Completed	Sub Contactors	TBC	

- **We have sent the coupons for testing, so let's cross our fingers and hope everything works out. I will continue to monitor the situation at Stelia to see if there is anything developing for Turkish Airlines.**

Kuwait Airways

Airline	Kuwait Airways		Aircraft	A330	7
Surface(s)	Vertical		Seat OEM	TAS	
Design Stage	Certification	Commercial	Designer	Factory	
Completed	Issues	Completed	Sub Contactors	TBC	

- **We have had several back and forth discussions internally and with Airbus and Stelia. One of the main issues identified is the type of foam being used. We are now considering changing the type of foam, and Stelia is aligned with this idea, so we are ready to initiate testing.**

Air Calin

Airline	Air Calin		Aircraft	A350-900	2
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Internal	
Completed	In Process	Completed	Sub Contactors	TBC	

- We had another couple of calls last week with the Air Calin program manager at Stelia and the external program managers.
- The situation remains unchanged. We have offered to proceed with the next series of tests. The only test that fails is the one with material applied directly on Kydex, and for this one, as discussed during our visit, we suggested using Aquabind to lower the numbers and see if that resolves the issue.
- For all other tests, they will proceed with the standard treatment as previously agreed. They are keen for us to start testing as soon as we receive the Kydex that Stelia sent.

Air Mauritius

Airline	Air Mauritius		Aircraft	A350-900	3
Surface(s)	Vertical		Seat OEM	Stelia + Recaro	
Design Stage	Certification	Commercial	Designer	Airbus	
Completed	Completed	Completed	Sub Contactors	TBC	

- We have already shipped material with the treatment we believed was the best fit, and we will need to run the confidence testing as soon as we receive the materials for the coupons.
