| Surface(s)   | Vertical      |            | Seat OEM       | Stelia   |    |
| Design Stage | Certification | Commercial | Designer       | Airbus   |    |
| Completed    | Completed     | Completed  | Sub Contactors | TBC      |    |

- **Exchanged with both Air France and Stelia this week. They requested material for testing, I am 90% confident this is with new treatment but has not been confirmed yet. They want fire performance testing before application testing, unusual sequence .**
- **Regarding KLM program attribution decision, we are still awaiting final selection despite strong engagement, with decision expected by end of December around Christmas timing.**
- **Concerning material production, we hastily created 500 linear yards before panel specification confirmation, and panel changes now create potential issues as material was treated for MGR standard panels.**

## Lufthansa group

|              |                     |            |                |                    |    |
|--------------|---------------------|------------|----------------|--------------------|----|
| Airline      | Lufthansa (Voyager) |            | Aircraft       | A350 /B748         | 37 |
| Surface(s)   | Vertical (BC+FC)    |            | Seat OEM       | Stelia             |    |
| Design Stage | Certification       | Commercial | Designer       | PG + Pearson Lloyd |    |

|              |                     |            |                |                    |    |
|--------------|---------------------|------------|----------------|--------------------|----|
| Airline      | Lufthansa (Voyager) |            | Aircraft       | B777X              | 20 |
| Surface(s)   | Vertical (BC+FC)    |            | Seat OEM       | Collins USA        |    |
| Design Stage | Certification       | Commercial | Designer       | PG + Pearson Lloyd |    |
| Completed    | In Progress         | Completed  | Sub Contactors |                    |    |

- Forecast requirements have been emphasized to Nathan during discussions, with potential in-person meeting planned during upcoming site visit, though coordination may be challenging as Nathan works remotely and is only on-site a few days per week.
- **SFH to attempt to contact Lufthansa to explore obtaining usage rights and permission for internal communications, leveraging the Allegris program's success story.**

## Qatar

|              |                    |             |                |           |     |

| Airline      | Qatar              |             | Aircraft       | 777 + 787 | 178 |
| Surface(s)   | Vertical + Seating |             | Seat OEM       | Adient    |     |
| Design Stage | Certification      | Commercial  | Designer       | Acumen    |     |
| In Progress  | In Progress        | In Progress | Sub Contactors | TBC       |     |

|              |                    |            |                |                 |          |
|--------------|--------------------|------------|----------------|-----------------|----------|
| Airline      | Qatar              |            | Aircraft       | 321             | 20+30+25 |
| Surface(s)   | Vertical + Seating |            | Seat OEM       | Stelia          |          |
| Design Stage | Certification      | Commercial | Designer       | Priestman Goode |          |
| Completed    | In Progress        | Completed  | Sub Contactors | TBC             |          |

- **Excellent news yesterday as the final BHCSS-2809 material arrived for production and testing, completing our urgent material supply requirements.**
- **It was decided not to tell Qatar of the material arrival during our calls, as we want time for internal testing and to be further prepared before informing them and shipping to Tescorp.**
- **SFH will visit Fathomtree next week to inspect panels before shipment to Stelia, followed by a Stelia visit the week after to meet with Qatar and Stelia teams for panel review before production.**
- **Creasing issue resolution shows positive developments as the problem appears resolved by discontinuing reinforcement in affected areas, with Tyler expected to receive new samples without reinforcement by end of this week.**

## Riyadh Air

|              |               |            |                |                 |    |

| Completed    | In process       | Completed  | Sub Contactors | Safran / Collins       |    |

- **The new lab dip for saffron seeds and particle surfaces will be ready beginning of next week, and we will ship it to Priestman Goode as soon as we have it.**
- **Once reviewed and accepted, we can go back to Safran and inform them of the new material reference, then update everybody with the new reference information.**

## Etihad

|              |               |             |                |                    |    |
|--------------|---------------|-------------|----------------|--------------------|----|
| Airline      | Etihad        |             | Aircraft       | A321               | 40 |
| Surface(s)   | Vertical      |             | Seat OEM       | TAS (Vantage Nova) |    |
| Design Stage | Certification | Commercial  | Designer       | JPA                |    |
| Not started  | Completed     | In Progress | Sub Contactors |                    |    |

- **Lab dips should be received by the end of this week for the digitally printed material, and we will forward them to Thompson Aero seating to assess their interest in using it for the CDR mock-up.**
- **We will not be able to provide the material in time for the DDR mock-up due to timing constraints.**

- **Activity on the designer side continues with Anna from JPA to ensure she meets her deadlines, as these are fine-tuned lab dips of previously developed material.**

## Emirates

|              |                         |            |                |          |    |

| Completed    | Completed                | Completed  | Sub Contactors | Multiple |    |

- **Based on Edwin's forecast provision, SFH developed an application to update stocks in real-time, though due to current ERP constraints it requires manual updating of 1-3 minutes per PO using just the PO number and off-stocked quantity.**
- **The system automatically sends emails to airline buyers when stock runs low, prompting them to either place a PO or provide new forecasts for restocking, while also tracking which part numbers are moving too slow or faster than planned.**
- **The application was presented to Jason and Melissa yesterday and is available online for review, it offers strategic value for airline communication and visibility into our support activities.**
- **SFH to confirm Carpenter visit after today's call with Qatar.**

## Fly Dubai

|              |               |            |                |      |           |
|--------------|---------------|------------|----------------|------|-----------|
