

Sales Report	
Date(s):	October 15th - October 21st
Locations Visited:	
Sales Manager:	Stephane Husser

Air France- KLM

Airline	Air France		Aircraft	B777	24
Surface(s)	Vertical		Seat OEM	Safran	
Design Stage	Certification	Commercial	Designer	Multiple	
Completed	Completed	Completed	Sub Contactors	MGR	

Airline	Air France		Aircraft	A350	38
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Multiple	
Completed	Completed	Completed	Sub Contactors	ACH	

Airline	KLM		Aircraft	TBC A350	11
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Airbus	
Completed	Completed	Completed	Sub Contactors	TBC	

- During the visit to Stelia, Stéphane discussed the possible transition from the BC3 coating to a lighter formulation for current Air France black panels, reviewing both the expected implications in terms of application process and fire test performance.
- **No news yet regarding the inference trials at Stelia.**
- The program manager for KLM at Stelia confirmed that material ULFRB 914-5417 will be required with different treatments, for MGR and ACH programs. Treatments will therefore need to be double-checked with Stelia prior to application to ensure full compatibility.
- **We received additional information from Stelia regarding the materials and treatments to be used. The certification work remains challenging, we're still struggling to achieve compliance on the new MGR panel, though Stelia has now provided more precise parameters, which should help refine the next round of trials.**

Lufthansa group

Airline	Lufthansa (Voyager)		Aircraft	A350 /B748	37
Surface(s)	Vertical (BC+FC)		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	Completed	Completed	Sub Contactors	Multiple	

Airline	Lufthansa (Voyager)		Aircraft	B777X	20
Surface(s)	Vertical (BC+FC)		Seat OEM	Collins USA	
Design Stage	Certification	Commercial	Designer	PG + Pearson Lloyd	
Completed	In Progress	Completed	Sub Contactors		

- **SFH liaised with Nathan (Procurement, Stelia), who confirmed that the program is expected to start shortly.**
- **Stéphane and Nathan had a call to review the upcoming program. There are still a few question marks regarding the materials already ordered, but both sides agreed to gather and cross-check information to ensure all required materials are available to start production. A follow-up call is planned for next week to compare findings and confirm readiness before launch.**

Qatar

Airline	Qatar		Aircraft	777 + 787	178
Surface(s)	Vertical + Seating		Seat OEM	Adient	
Design Stage	Certification	Commercial	Designer	Acumen	
In Progress	In Progress	In Progress	Sub Contactors	TBC	

Airline	Qatar		Aircraft	321	20+30+25
Surface(s)	Vertical + Seating		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	In Progress	Completed	Sub Contactors	TBC	

- **We received the new drawings, allowing us to start production of the new panels. Unfortunately, Asahi not only failed to improve on their lead time, but also informed us of a further delay of a few days on one of the key references, which is disappointing considering the level of attention this program has received from the outset.**
- **As Tapis is responsible for certification, any additional time offers a narrow window to refine or adjust should we encounter issues during testing. We continue to receive strong support from both Stelia and Qatar, but due to the delay in material delivery, we are now forced to begin development testing with an alternate color lot, which is never ideal given inherent batch variations, even when color is not a performance factor.**
- **We continue to receive very strong support from both Qatar and Stelia, and there is a high stake on this program. I sincerely appreciate the efforts being made by Technical Support to deliver the panels and engage in testing, as this is a key program that will define our long-term position with Stelia.**

Riyadh Air

Airline	Riyadh Air		Aircraft	B787	39
Surface(s)	Vertical		Seat OEM	SSGB	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Completed	Completed	Sub Contactors		

- **We received a new request for quotation for the ongoing program. This is the first in two years, and we decided to maintain the same price level, as it was already positioned on the higher side from the start.**

Saudi

Airline	Saudi		Aircraft	A321 XLR	8 (15 total)
Surface(s)	Vertical + Seat covers.		Seat OEM	TAS (Vantage Solo)	
Design Stage	Certification	Commercial	Designer	Design investment.	
Completed	Completed	Completed	Sub Contactors		

Airline	Saudi		Aircraft	B787	39+ 10
Surface(s)	Seat Covers		Seat OEM	Safran PEY+ Collins BC	
Design Stage	Certification	Commercial	Designer	PG	
Completed	In process	Completed	Sub Contactors	Safran / Collins	

Airline	Saudi (retrofit)		Aircraft	A330	35
Surface(s)	Seat Covers		Seat OEM	Safran PEY+ Collins BC	
Design Stage	Certification	Commercial	Designer	PG	
Completed	In process	Completed	Sub Contactors	Safran / Collins	

- **We shipped the samples that were requested on an emergency basis. Stéphane will double-check with both Saudia and Adam to ensure that everything required by Collins has been covered and that no additional material or support is pending.**

Etihad

Airline	Etihad		Aircraft	A321	40
Surface(s)	Vertical		Seat OEM	Stelia	
Design Stage	Certification	Commercial	Designer	JPA	
Not started	Completed	In Progress	Sub Contactors		

- **We will check whether Thompson can proceed with ordering the digitally printed material. If not, they will either have to use the remaining stock in an alternative color, or wait for the next production batch. Despite the planned trip to Dubai likely being postponed due to scheduling conflicts with the Qatar panel testing at Stelia, we continue to push for both materials from the two suppliers to be fully interchangeable.**

Emirates

Airline	Emirates – 2S02 Linefit		Aircraft	B777X	40
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	TBC	
Completed	Completed	Completed	Sub Contactors	Multiple	

Airline	Emirates – 2S08 retrofit		Aircraft	B777	46
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	TBC	
Completed	Completed	Completed	Sub Contactors	Multiple	

- **We received the forecast for next year's maintenance needs, and the file is very well prepared. It should prove helpful in the coming months. Edwin reminded me once again that the forecast is not a purchase order, so figures may still vary.**
- **At first glance, it appears that maintenance orders are returning to more standard levels starting next year. The real concern lies in the quantity of retrofit material currently being ordered for retrofit activities. As linefit production is also expected to ramp up, we have been invited to visit Carpenter. It would be beneficial to align on upcoming material requirements and future planning during a visit with Carpenter.**

Fly Dubai

Airline	FlyDubai		Aircraft	B737	Around 80
Surface(s)	Vertical		Seat OEM	SSFR	
Design Stage	Certification	Commercial	Designer	JPA	
Completed	Completed	Completed	Sub Contactors		

- **A very good performance from the Lab Dips team, who managed to deliver on time for JPA's upcoming meeting with FlyDubai. Congratulations to everyone involved for keeping the schedule tight and ensuring everything is ready ahead of the review.**

FlyNas

Airline	FlyNas		Aircraft	A330	15+15
Surface(s)	Vertical		Seat OEM	Optimares	
Design Stage	Certification	Commercial	Designer	Acumen	
Completed	Completed	Completed	Sub Contactors		

- **No update**

Turkish Airlines

Airline	Turkish Airlines		Aircraft	TBC	Up to 600
Surface(s)	Seat Cover		Seat OEM	TCI	
Design Stage	Certification	Commercial	Designer	Priestman Goode	
Completed	Completed	Completed	Sub Contactors	TBC	

- **The situation with TCI remains complex. They now intend to test the material unsupported for vertical burn, heat release, and smoke density. Furthermore, they continue to reference the material as Alcantara and Tapisuede, still using the Tapisuede part number. It is not yet clear whether they actually used standard Tapisuede for their testing or not.**
- **I continue to press them to update all references to the correct BHCSS designation. We are currently gathering the necessary samples and will most probably have a call with TCI shortly to review their testing approach and clarify the next steps.**

Kuwait Airways

Airline	Kuwait Airways		Aircraft	A330	7
Surface(s)	Vertical		Seat OEM	TAS + Stelia	
Design Stage	Certification	Commercial	Designer	Factory	
Completed	Issues	Completed	Sub Contactors	TBC	

- SFH received a call from Renaud, the program manager at Stelia, who expressed concern that the Oxford Grey material ordered by Kuwait Airways may have already been ordered by MGR for the same purpose, without Tapis being informed. Renaud is currently verifying this information to confirm whether it is indeed the case.
- SFH confirmed that some Oxford Grey material had been ordered, but clarified that this color is regularly ordered by MGR for the Air France program, and since no details were communicated to Tapis regarding its end use, there was no way to know it was intended for Kuwait. Renaud fully understood the situation and will come back with his findings once he has confirmed the facts.
- **No update last week.**
