

Elevating the Passenger Experience

EMEA Aviation 2025 Review

State of EMEA Aviation

Europe

- **Market Status**
 - Domestic: Stabilized at 2019 levels (leisure ↑, business ↓)
 - International: Americas strong, Asia slow, ME routes exceeded 2019
- **Highlights**
 - High load factors (80-85%)
 - Fleet modernization ongoing
 - Tourism above 2019
- **Critical Challenges**
 - Economic recession confirmed
 - Workforce crisis: 18-20K pilots, 30% engineers (2-3 year gap)
 - Sustainability costs: €4-8 per passenger
 - Geopolitical + supply chain issues

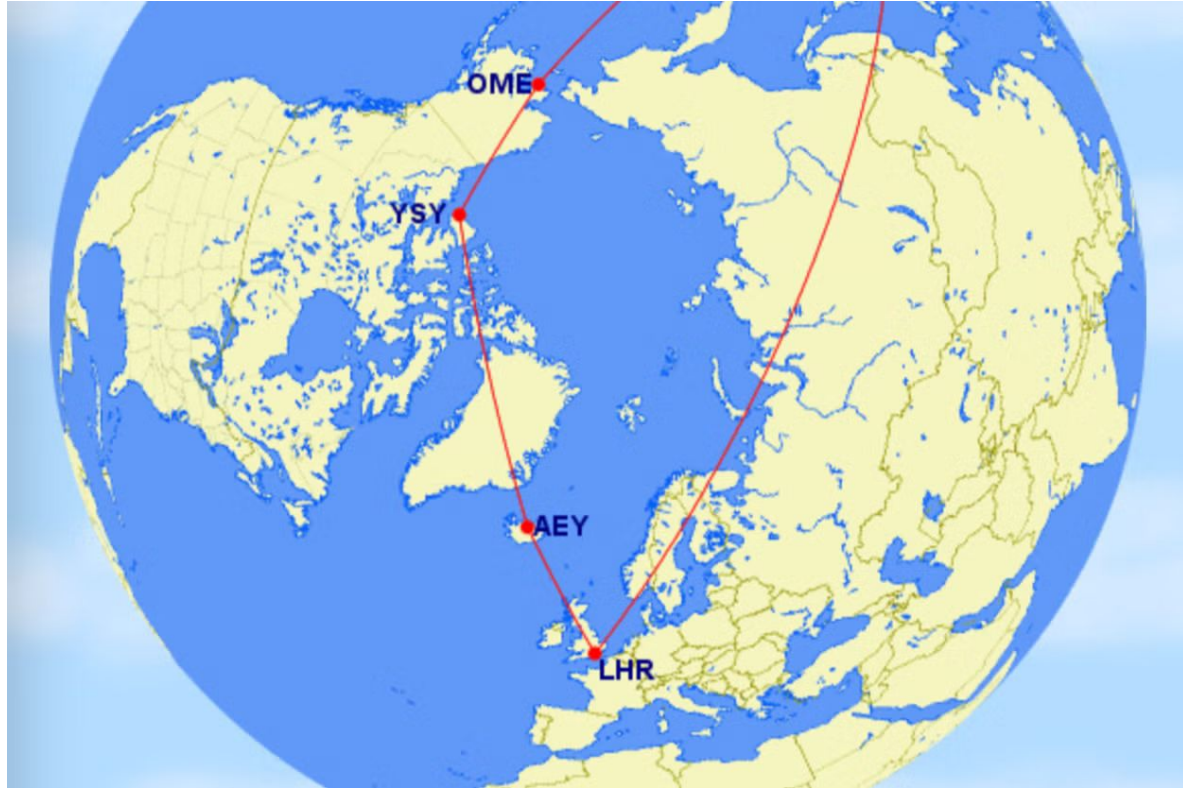

State of EMEA Aviation

- **Europe Fleet Growth (2025-2026)**
- **Outstanding Orders: 850+ aircraft (2025-2035)**

Metric	2025	2026	Growth
Total Fleet	4,200	4,300	+2.4%
Deliveries	185	185	-
Single-Aisle	3,100	3,175	+75
Twin-Aisle	1,100	1,125	+25
Legacy	2,200	2,285	+3.2%
LCC	1,650	1,720	+4.3%

Geopolitical Issues

Europe Strategic Shifts

- *China Route Retreat (2024-2025)*
 - Complete exits: Virgin Atlantic, SAS, LOT
 - Major cuts: Finnair -90%, BA, Lufthansa, KLM -20%
 - Cause: Russian airspace +2-4 hours, Chinese carriers 78% share
- *Infrastructure Constraints*
 - Heathrow: 98-99% capacity ceiling
 - Schiphol: Forced flight reductions
 - ATC + ground handling shortages
- *Emerging Trend: Business Class on Single-Aisle*
 - Turkish: 220 A321neo with full business class
 - Iberia: A321XLR lie-flat (world's first)
 - Eurowings: Premium BIZ launch Nov 2025
- *Assessment:*
 - Stable but constrained | Efficiency-driven, not expansion

Middle East Overview (2025)

- **Market Status**
 - Dubai = World's #1 international airport
 - ME-Europe traffic exceeded 2019 levels
 - Three-way rivalry: UAE vs Qatar vs Saudi
- **Competitive Advantages**
 - Russian airspace access (2-4 hr advantage)
 - Sovereign wealth fund backing
 - Less workforce constraints (competitive expat packages)
 - Infrastructure expansion (King Salman, DXB, DOH, AUH)
- **Market Dynamics**
 - Unprecedented growth trajectory
 - Premium demand robust
 - Hub strategies highly successful

State of EMEA Aviation

- Middle East Fleet Growth (2025-2026)
- **Outstanding Orders: 1,000+ aircraft (80% twin-aisle)**
- **+7.1% = 3x Europe growth (+2.4%)**
- **2.5x global average (+2.8%)**
- 50/50 single/twin-aisle split (vs Europe 74% single)
- Highest twin-aisle concentration globally

Metric	2025	2026	Growth
Total Fleet	1,400	1,500	+7.1%
Deliveries	240	240	-
Single-Aisle	700	750	+50
Twin-Aisle	700	750	+50

Middle East Strategic Position

- *Business Class = Standard (10+ years)*
 - All aircraft types including single-aisle
 - Premium competitive requirement
 - Quality = widebody standard regardless of size
- *Retrofit Cycle*
 - **5-7 years** (vs Europe 10-12 years)
 - Recurring revenue model
- *Opportunity Sizing*
 - 240 deliveries in 2026
 - 120 twin-aisle = premium materials
 - Government-backed certainty
- *Assessment:*
 - High-growth, premium-focused|Expansion-driven

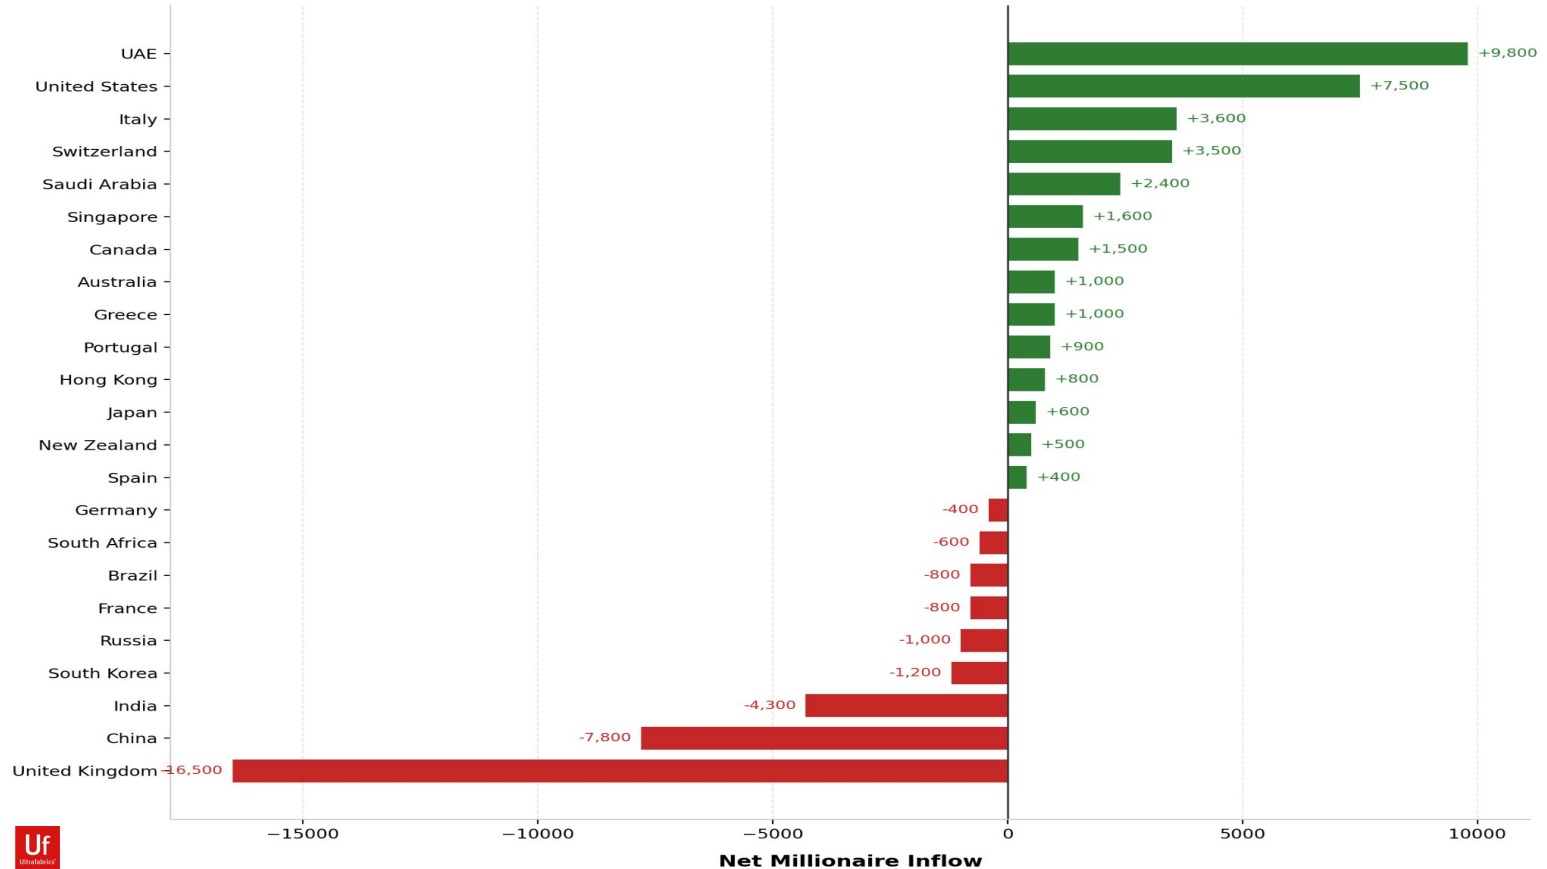

Africa Overview (2025-26)

- *Outstanding Orders*: 75+ aircraft
- *Key Programs*
 - Ethiopian: 58 aircraft (A350)
 - EgyptAir: 16 A350 (6 new in 2025)
- *Challenges*
 - Severe workforce constraints
 - Limited training infrastructure
 - Brain drain to ME carriers

Metric	2025	2026	Growth
Total Fleet	650	675	+3.8%
Deliveries	48	48	-

From Europe to the Gulf: The Shift in High-Value Passengers

Net Millionaire Inflow by Country (2024)

Premium Opportunities Are Concentrating in the Middle East

Eurowings

FlyDubai

Flyadeal

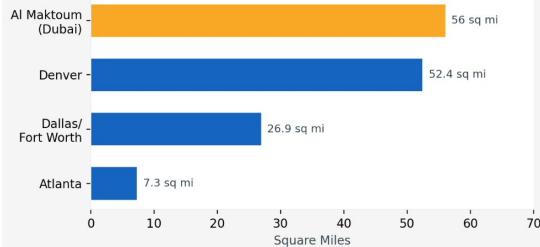

Al-Maktoum Airport Project

Dubai Al Maktoum vs US Airports

Final Comparison

1. SIZE COMPARISON

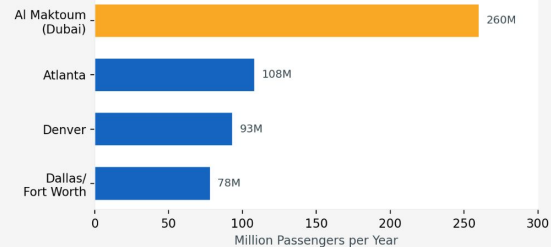

Dubai will be 7% larger than Denver

3. INFRASTRUCTURE

- ▶ **Runways:**
5 parallel
- ▶ **Gates:**
400 (Atlanta: 192)
- ▶ **Cost:**
\$35 billion
- ▶ **Cargo Capacity:**
12 million tonnes/year

2. PASSENGER CAPACITY

Dubai will handle 2.4x more passengers than Atlanta

4. SUMMARY HIGHLIGHTS

- Dubai is 7% larger than the biggest US airport
- Dubai handles 2.4x more passengers than the busiest US airport
- Dubai has 2x more gates than any US airport
- Overall: Dubai will be the world's largest airport in every major category

LineFit Opportunities: Europe (2025-2035)

- *Lufthansa Group:*
 - 107 aircraft | 2026-2032
- *Turkish Airlines:*
 - 220 aircraft | Through 2035
- *Air France-KLM:*
 - 150+ aircraft | 2023-2027
- *SAS:*
 - 53 aircraft | 2024-2028
- *TAP Air Portugal:*
 - 26 aircraft
- *Iberia:*
 - A350-900 + A321XLR ongoing
- *Ryanair:*
 - 150 aircraft (737 MAX) | 2027-2033
- *Wizz Air:*
 - 434 aircraft backlog

LineFit Opportunities: MEA (2025-2035)

Middle East

- **Qatar Airways:**
 - 184 A350 | Through 2029+ (largest)
- **Emirates:**
 - 80 aircraft (A350, 787) | Starting 2025
- **Turkish Airlines:**
 - 220 aircraft (bridge EU/ME)
- **flynas:**
 - 190 aircraft (A320 family) | 2024-2029
- **Saudia:**
 - 39 B787 | 2023-2029
- **Etihad:**
 - ~100 aircraft on order | 2025+
- **Riyadh Air:**
 - Substantial orders (new entrant)]

Africa

- **Ethiopian Airlines:**
 - 58 aircraft (A350) | Largest African program
- **EgyptAir:**
 - 16 aircraft (A350) | 10 outstanding + 6 new (2025)

Europe Retrofit Opportunities (2024-2030)

- *Lufthansa Group - Allegris*
 - Multi-airline: Lufthansa, Swiss Austrian
 - Aircraft types: A350, 787, A330neo
 - Premium cabin refresh to compete with Gulf carriers
- *Air France - KLM:*
 - Fleet harmonization across combined fleet
 - A350 and 787 with updated interiors
 - Existing wide-body fleet retrofit ongoing
- *Turkish Airlines:*
 - A3 business class seat program active
 - Economy class ultra-leather inquiry (exploratory)
- *EMEA Refresh Cycle*
 - ME: 5-7 years
 - EU: 10-12 years

ME Retrofit Opportunities (2024-2030)

- **Emirates**
 - 160 aircraft (777 + A380 fleets)
 - Timeline: 2024-2030+
 - Status: 777 nearing completion | A380 starting 2025-2026
 - Opportunity: Premium textiles replacing paint/laminate
- **Qatar Airways:**
 - 21 A350 in-service fleet retrofit
 - 184 on order alignment (LineFit standards)
 - Qsuite rollout across entire fleet
 - Timeline: Ongoing 2025-2029
- **Etihad Airways:**
 - 6 A321neo acquired second-hand (ex-Bamboo) in 2024
 - Standardization + business class configuration required
 - ~100 aircraft future pipeline needing alignment
- **Saudia:**
 - 787 program: PANS (panels/vertical) opportunities beyond current Ultraleather

SWOT

Strengths	Weakness
• Flammability Expertise • Recognition • Reach to design community	• MOQs • Higher weight than competitive products for seating market • End of Life sustainable solution
Opportunities	Threats
• Keep the lead in sustainability • Find a metric for comfort. • Establish foothold in Turkey	• Difficulties to meet HRR requirements • Nomex, Alcantara and potential new engineered leather capable to challenge our technological advantage.

2026 Forecast

Airline/Program	2026 Budget Qty	Style
Lufthansa	4000	Ultraleather standard (958 -987 - 971)
Air France	2000	Ultraleather Bio
Air France	1500	Ultraleather Standard
Swiss	300	Ultraleather Bio
Brussels	300	Ultraleather Bio
KLM	1000	Ultraleather standard 914 only
Saudi	1000	Ultraleather standard (932 - 971)
Saudi	500	Ultraleather standard 974
Emirates	6200	Maintenance Ultraleather
Emirates	1100	Retrofit Ultraleather
Etihad	1500	Ultraleather standard (981 old ref -914)
Fly Dubai	500	Ultraleather standard 914
Riyadh	1000	Ultraleather Bio 947

2025 / 2026 Engaged Projects

Airline	Project	ETA	Lab Dips Status
<i>THY</i>	600 aircrafts	2025	In process / postponed
<i>Kuwait</i>	7 A330	2024	Finalized
<i>FlyDubai</i>	>200 (single aisle)	2024	Finalised
<i>Swiss</i>	5 A350	2024	Finalised
<i>Saudi</i>	>50	2024	In Process
<i>Qatar</i>	>100	2024	In process
<i>Qatar</i>	New Designs - fleetwide	2026	Design phase to be started EOY 2024
<i>Etihad</i>	40 SA	2024	New Design In process
<i>Emirates</i>	110 A380	2029	New design B777 inspired

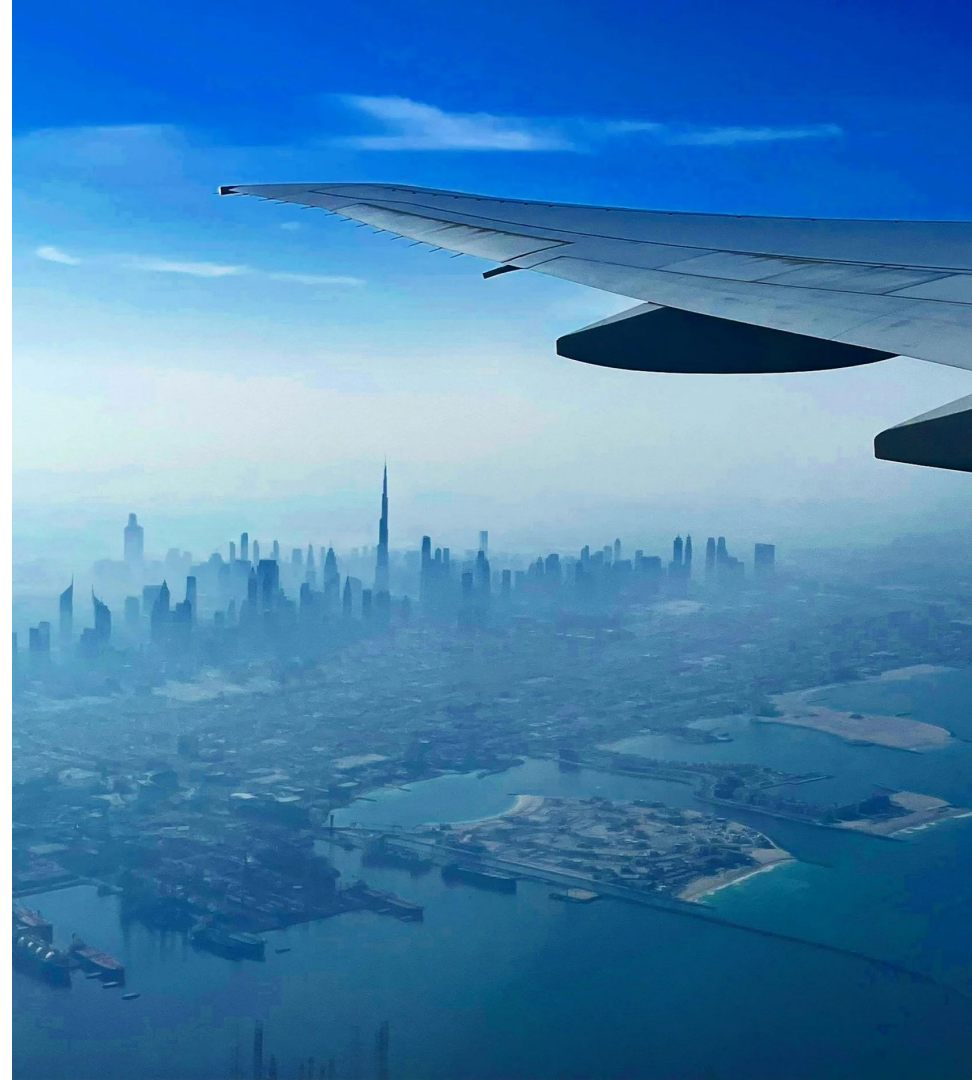

9-Series Quick Ship

-
- TO BE UPDATED WITH VOLUMES OF 9-SERIES QUICKSHIP SOLD

Conclusion

- *Our Opportunity*
 - 473 aircraft deliveries in 2026 across EMEA
 - 240 ME deliveries (120 twin-aisle = premium interiors)
- *Strategic Shift Complete*
 - ME 3x3x faster growth than Europe (+7.1% vs +2.4%)
 - 80% twin-aisle focus = premium materials opportunity
- *Clear Path to Growth*
 - 5 priority wins identified for 2026
 - 55-60K yards target (+35-46% growth)
 - Recurring revenue from ME retrofit cycles (5-7 years)
- *Competitive Positioning*
 - Strong relationships: Lufthansa, Air France, Emirates, Etihad, Saudia
 - Recent wins: Riyadh Air, Etihad
 - Strategic targets: flynas (LCC), Qatar expansion, Ethiopian entry

Thank You.
